Definition of Position

Performs work including inspections and control operations for mosquitoes, yellowjackets, rats, mice and other vector and/or nuisance organisms, vegetation management, and other related work and supportive services as required.

Essential Duties

The job includes but is not limited to the following regular duties:

- Conducts thorough, year-round surveillance and inspection control programs for locating both domestic and natural mosquito breeding sources such as ponds, catch basins, small containers, septic tanks, household drains, swimming pools, ditches, pastures and marshes, and maintains an awareness of mosquito breeding patterns and practices that are significant to the timing of operations;
- Conducts thorough, year-round surveillance and inspection control programs for yellow-jackets, rodents, ticks, and other vector/nuisance organisms and maintains an awareness of breeding patterns and practices that are significant to the timing of operations;
- Applies pesticides and herbicides as needed and follows all regulatory requirements, selecting appropriate material dosage rates and equipment to obtain optimum coverage and results;
- Keeps detailed and accurate daily electronic and paper records of work done and materials and equipment used;
- Works with other District staff to educate and advise local citizens about mosquito and mosquito-like gnat problems, yellowjackets, rodents, ticks, and other vector/nuisance organisms, requests

cooperation and assistance, and discusses the need for control and/or source reduction in an ecologically sound manner;

- Safely and effectively operates and maintains trucks, boats, ATV's, manual and power spray equipment and shop equipment;
- Fabricates any specialized tools or equipment as needed;
- Assists in the maintenance and repair of building and grounds;
- Successfully utilizes a wide variety of specialized hand tools and equipment such as hand lenses, sample bottles, dippers, sweep nets, monitor traps (CDC, Fay, New Jersey, Aquatic and Oviposition), fish traps and nets, chain saws, weed whackers, shovels, radios, cell phones, computers, thermometers, microscopes and drafting equipment;
- Prepare and revises operational maps and biological records of potential mosquito, mosquito-like gnat, yellowjacket, rodent, tick and other vector/nuisance organism breeding areas within the District, including properties, ponds, topographic features, and other characteristics relevant to mosquito control operations;
- Records changes and compiles data as directed on work done, types of service, costs, mosquito and vector/nuisance organism population history, and otherwise assists District in collecting and compiling data;
- Maintains knowledge of current applicable local, State and Federal regulations pertaining to all aspects of mosquito and vector/nuisance organism control activities;
- Performs general labor and equipment operations in such source reduction activities as cutting ditches for drainage and culvert and tide gate repairs; brushing and clearing of vegetation; stocking mosquito fish and/or other biological control agents as required in mosquito and vector/nuisance producing habitats;

Employment Standards

Education

- Bachelor of Science or Bachelor of Arts degree in the field of Entomology, Biology, or Ecology from an accredited College or University is desirable.
- Minimum education equivalent to or graduation from high school, and completion of two or more college courses in biological, natural, or environmental sciences or some combination thereof.

Physical/Functional Requirements:

- Ability to pass pre-employment physical and drug test;
- Ability to pass any required fitness-for-duty and drug test exams;
- Ability to regularly manipulate small items and tools;
- Ability to regularly bend at the knees and waist;
- Ability to occasionally reach overhead;
- Ability to periodically lie in a prone position;
- Ability to frequently traverse uneven hard or soft, wet or dry ground such as field, dirt banks, stream banks, shallow ponds, marshes, creeks and rocky or gravelly areas;
- Ability to occasionally perform repetitive motion associated with computer devices, mechanical equipment and small tools;
- Ability to crawl on the ground or through or under objects (e.g., wire fences);
- Ability to occasionally climb ladders or fences;
- Ability to occasionally assist in the lifting of objects weighing in excess of 60 pounds;
- Ability to regularly lift objects unassisted weighing up to 60 pounds;
- Ability to frequently perform heavy physical labor;
- Ability and willingness to frequently work outdoors in all types of landscapes and under all types of weather conditions;
- Must have good verbal and written English communication skills;
- Must be able to always communicate with the public in a tactful, courteous, and professional manner;

- Must be able to frequently receive, understand and follow oral and written directions from others;
- Must always work cooperatively with private landowners and with individuals from other agencies;
- Must have 20/20 vision (which may be corrected) to read, write, operate equipment, and work safely;
- Must be able to frequently demonstrate measurable depth perception; and
- Requires good hearing (which may be corrected) to hear alarms, horns, use phones and radios.

License

Must have a valid California Driver's license with a good driving record and be insurable with the Vector Control Joint Powers Agency, using the accepted guidelines of the insurance provider.

Certification

As a condition of continued employment, individuals appointed to the position must obtain certificates of competency issued by the State of California Department of Health Services entitled "Certified Technician –Mosquito Control", "Terrestrial Invertebrate Vector Control", and "Vertebrate Vector Control;" (Licenses A, B, C, D) within 18 months of their original date of hire. Certifications must be maintained throughout employment.

Working Conditions

The Vector Control Technician position is physically demanding and employees may be exposed to: pesticides, communicable diseases, poison oak, polluted or contaminated areas, stinging and biting organisms (snakes, spiders, wasps, ticks, mosquitoes, etc.) and other health hazards: inclement weather conditions (excessive heat, cold, wind, rain, etc.); and verbally abusive behavior from hostile individuals.

Work Hours: 8:00 a.m. to 4:30 p.m., Monday through Friday; hours may vary at Management's discretion for seasonal nighttime, and early morning/evening vector management.

The provisions of this job announcement do not constitute an expressed or implied contract. Any provision contained in this announcement may be modified or revoked. Acceptance of an application does not mean qualification for an interview.

An Equal Opportunity Employer
